It's one thing to have money and the time to enjoy it; it's another thing when you can live life with purpose. My purpose is to be able to make a difference not only in my life, but also in other people's lives. I've been able to achieve that on many different levels because of the commitment and dedication that I have made to my Market America-SHOP.COM business and helping others achieve their dreams.

I thank God for this opportunity because people are looking for ways to achieve their goals and dreams, and Market America-SHOP.COM is the answer. When you know you have the vehicle that can change people's lives, that you've got the solution to today's economy, you've got purpose! There has never been a better time to build a Market America business than today. With the Internet, social media, social shopping and mobile technology, Market America-SHOP.COM will go down in history as the company that changed the way people shopped and created more wealth globally than any other company in history.

You do have to know that it takes a lot of hard work to build this business; but it is worth it and I might add, a lot of fun. Think about how much you work and where are you today? It's about the time freedom; being able to do what you want when you want. I can take a trip at a moment's notice and not have to worry when I come back. Work this proven business system for the next couple of years, and you will have the rest of your life to do what you want when you want it. What is your life worth? Go out and change some lives and yours will change! It doesn't get any better than that! Your WHY has to be big enough though to get you through to the other side.

Isn't it time to take control of your life instead of letting life control you? Start working for your future instead of someone else's. Market America-SHOP.COM offers you financial and time freedom, and total control of your own life. Remember that whatever you focus on will become your destiny. Now is the time to focus on making your dreams a reality.

Go out and make it happen for you and your family. Go out and make a difference. Let's do it together. It's only a matter of time!
